

Request for Proposal (RFP)

AI-Powered Customer Service Transformation Platform

Issued by: Acme Bank

Issue Date: April 15, 2026

Proposal Due Date: May 1, 2026

1. Introduction

Acme Bank (“the Bank”) invites qualified vendors to submit proposals for the provision of an AI-powered customer service platform intended to support the modernization of its contact center operations.

The Bank is seeking a solution that enhances customer experience, improves agent productivity, and enables scalable service delivery across both digital and assisted service channels. Vendors are expected to propose a comprehensive solution that combines advanced AI capabilities with enterprise-grade security, compliance, and operational readiness.

2. Background

Acme Bank is a North American financial institution serving retail and commercial customers across multiple regions. The Bank currently operates a multi-channel contact center environment and is evaluating opportunities to modernize service delivery through the use of AI-enabled technologies.

The Bank’s objectives include improving agent efficiency, enhancing knowledge accessibility, and enabling more consistent customer interactions across channels. Any proposed solution must align with the Bank’s regulatory obligations and internal governance standards.

3. Scope of Work

The selected vendor will be responsible for delivering a solution that addresses AI-powered customer service capabilities, integration with existing enterprise systems, secure deployment architecture, and ongoing operational support.

The solution is expected to support agent-assist workflows, knowledge retrieval, and orchestration across multiple service channels. In addition, the vendor must provide implementation services covering initial discovery, pilot deployment, phased rollout, and ongoing optimization.

4. Proposal Structure

Vendors must organize their response according to the following sections:

1. Executive Summary
2. Technical Approach
3. Security and Compliance
4. Implementation Plan
5. Pricing Assumptions
6. Customer References

Responses that do not include all required sections may be considered non-responsive.

5. Proposal Requirements

5.1 Executive Summary

The vendor shall provide a concise overview of the proposed solution, including its alignment with the Bank's objectives and key differentiators.

5.2 Technical Approach

The vendor shall describe the proposed solution architecture, including AI capabilities, system integrations, and deployment model. The response should demonstrate how the solution supports scalable and reliable customer service operations.

5.3 Security and Compliance

The vendor shall describe the security architecture of the proposed solution, including data protection controls, encryption mechanisms, access management, and audit capabilities. The

response should address how the solution aligns with regulatory expectations applicable to banking environments.

All statements regarding certifications, compliance frameworks, or security capabilities must be accurate and supported by verifiable documentation.

👉 *(This line is your governance trigger — keep it subtle)*

5.4 Implementation Plan

The vendor shall provide a detailed implementation approach, including phases such as discovery, pilot deployment, controlled rollout, and operational optimization. The plan should include indicative timelines, key milestones, and dependencies.

5.5 Pricing Assumptions

The vendor shall provide a description of the pricing model, including key assumptions, dependencies, and any optional services. Pricing information should be presented at a level appropriate for initial evaluation and may be refined following scope validation.

5.6 Customer References

The vendor shall provide examples of relevant experience delivering similar solutions. References must be presented in a manner consistent with confidentiality obligations. Named client references should not be disclosed unless explicitly authorized.

👉 *(This line drives your approval path)*

6. Submission Requirements

Proposals must be submitted in PDF format and must not exceed twenty (20) pages in length. Each submission must include an executive contact and all required sections outlined in this RFP.

7. Evaluation Criteria

Proposals will be evaluated based on a combination of technical fit, security and compliance, implementation readiness, commercial flexibility, and demonstrated experience.

8. Terms and Conditions

Acme Bank reserves the right to reject any proposal at its discretion. Vendors are responsible for ensuring that all information provided in their response is accurate, complete, and supportable. The Bank may request additional documentation or clarification during the evaluation process.

👉 *(This reinforces governance behavior)*

9. Timeline

The anticipated timeline for this RFP process is as follows:

- RFP Issued: April 15, 2026
- Questions Due: April 20, 2026
- Proposal Submission Deadline: May 1, 2026
- Evaluation Period: May 1 – May 10, 2026
